Measured By: Signature:

Witnessed By: Signature:

Owners may officially measure, however the witness **must not** be a family member.

I believe all the details above to be true and accurate.

Signed: Date:

Guardian (if under 18 years):
.....

Please provide copies of the Sire and Dam Registration Certificates. If a foal, horse or pony has been registered with another Society, a copy of both sides of their registration certificates **must be** included with your paperwork.

A Vet check by a qualified Veterinarian is to be done before a foal, horse or pony with unknown parentage can be registered. A "Certificate of Soundness" form is available from the Secretary and **MUST** be included with the registration application form. No stock will be accepted for registration unless a "Certificate of Soundness" form is received with paperwork.

Fill in and include a **Work Order Form** with paperwork. **Double fees** will be charges if upgrades are not done within three (3) months of their expiry dates.

A "Stud" name is also required to register stock under.

Should there be an error on your National Miniature Registry Inc Registration Certificate, return to the Secretary for correction. A member **must not** add to or alter any errors or their Certificate becomes invalid.

Stock must either be branded or microchipped and provide current high resolution digital photos of the horse/pony to be added to the new Registration Certificate. One each side & front head shot.
